

Record of Burials in Wreay Cemetery

Based on the *List of Burials recorded in the Parish Register as buried in the Cemetery* prepared by Revd Canon Abraham Richard Hall in 1908 updated in subsequent years and *The Register of Burials*.

Wreay Cemetery (as opposed to the Graveyard immediately adjoining St Mary's Church) is on land given by Sarah Losh and consecrated 12th May 1842. The first burial noted in Canon Hall's record is dated 13th April 1844.

Burials within this electronic record are listed alphabetically by surname and then by date of burial so as to aid those looking for family members. Electronic version created March 2021 by Lois & Raymond Whittaker.

Column headings are as follows:

Surname, Christian Name - Place of death/residence - Date of death/burial – Age - Plot No

Plot numbers are based on Canon Hall's plan for the cemetery laid out in 1908 and have been continued beyond 880 for more recent burials and can be cross referenced to the updated plan.

Plot numbers in **red** indicate the presence of a memorial headstone and can be cross referenced to the photographic record. Other plot numbers can be located on the plan but have no headstone. Absence of plot number means that the location of burial within the cemetery is unknown.

It is assumed that not all of Canon Hall's 880 plot spaces are occupied and that he laid out the entire cemetery for future burials. He indicated known burials with an X on his plan and these are shown on the updated plan with their plot number but there always remains the possibility of further unknown or unrecorded burials.

Cremated remains are indicated by a letter **C** after Plot Number.
